This is a letter to inform you of my interest in becoming part of Pixel 8 Web Solutions & Consultancy Inc. in the position of Web Development Intern. Having 3 years of experience working with a front-end developer, I have managed to create responsive websites and interactive web applications in HTML, CSS, and Basic JavaScript.

In all my academic and personal projects, such as Crave and Click, TRVS Gaming Hub, and Tristan Betis Furniture / The 4B Betis Furniture, I have refined my abilities in designing user-friendly, accessible and aesthetically pleasing digital solutions. These projects enabled me to create clean designs, introduce dynamic elements, and achieve cross-device responsiveness.
